

OLD ONLY

JAMFX

THE ULTIMATE GAMING FLOOR EXPERIENCE & ORCHESTRATION PLATFORM

Powered by JAMNET – JAM FX transforms casino environments into fully synchronised, interactive entertainment spaces.

Live Jackpot Integration

Floor-Wide Sync

OLGR Approved

OVERVIEW

WHAT IS JAM FX?

JAM FX is a next-generation **Gaming Floor CMS and Experience Engine** – powered by JAMNET, its distributed media player network.

Unlike traditional signage systems, JAM FX doesn't simply display jackpots.

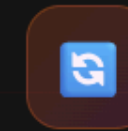

It orchestrates the entire floor in real time.

Powered by JAMNET

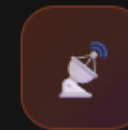

LIVE JACKPOT INTEGRATION

Real-time gaming system triggers

TRIGGER AUTOMATION

Content responds to live events

NETWORK SYNC

Frame-accurate playback across all screens

CLOUD MONITORING

Remote diagnostics & enterprise support

THE HARDWARE

JAMNET MEDIA PLAYER

At the core of JAM FX is the JAMNET intelligent media player – a compact, powerful device that connects your entire floor into one synchronised network.

- ▶ Responds simultaneously to gaming system triggers
- ▶ Plays synchronised win celebration videos
- ▶ Triggers coordinated audio sequences
- ▶ Activates synchronised LED lighting scenes
- ▶ Updates jackpot values in real time
- ▶ Scales across the entire property

SECTION ONE

KEY FEATURES

A complete floor orchestration system – every element
working as one.

FEATURE 01

SYNCHRONISED WIN CELEBRATIONS

When a major jackpot hits, the entire floor reacts as one – transforming a win into a shared experience that energises nearby players.

- ▶ All feature screens play the same celebration video simultaneously
- ▶ Audio builds and crescendos across zones
- ▶ LED lighting shifts to celebration mode
- ▶ Interactive floors respond in real time
- ▶ Jackpot artwork animates across every display

FEATURES 02 & 03

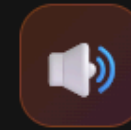

LED LIGHTING & SOUND

INTEGRATED LED LIGHTING CONTROL

Lighting becomes part of the entertainment strategy – not just ambience.

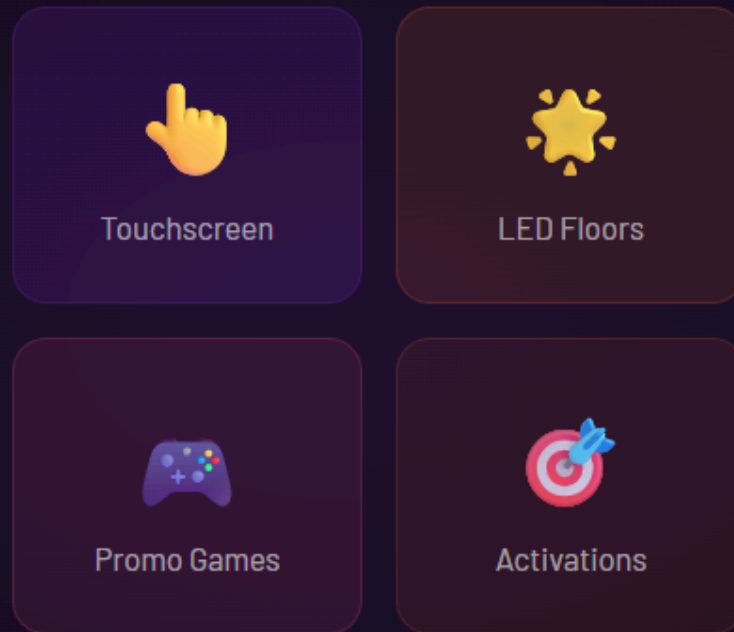

- ▶ Colour transitions based on jackpot tiers
- ▶ Floor-wide light pulses
- ▶ Zone-based lighting sequences
- ▶ Unified lighting + video + audio events

FLOOR-WIDE TRIGGERED SOUND

Synchronised audio eliminates delay and misalignment across all zones.

- ▶ Jackpot threshold build-up effects
- ▶ Progressive pool milestone sounds
- ▶ Tiered celebration audio
- ▶ Promotional audio triggers

FEATURE 04

TRUE INTERACTIVE CAPABILITIES

JAM FX goes beyond displays – creating real player participation moments that can be synchronised across the entire network.

- ▶ Touchscreen input systems
- ▶ Interactive LED floors
- ▶ HTML-based promotional games
- ▶ Player participation activations
- ▶ Coordinated engagement moments floor-wide

SECTION TWO

CONTENT TYPES

Rich, premium visuals designed for high-impact gaming environments.

CONTENT TYPE 01

WIN CELEBRATIONS

Cinematic-quality, synchronised win celebration content triggered automatically across every JAM FX connected screen the moment a jackpot hits.

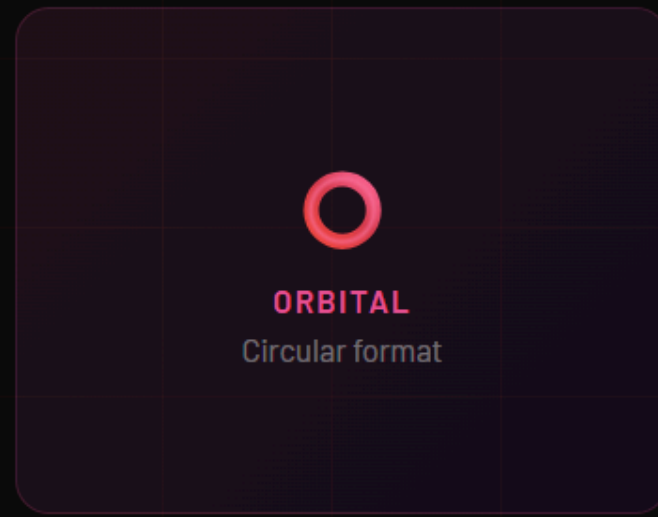

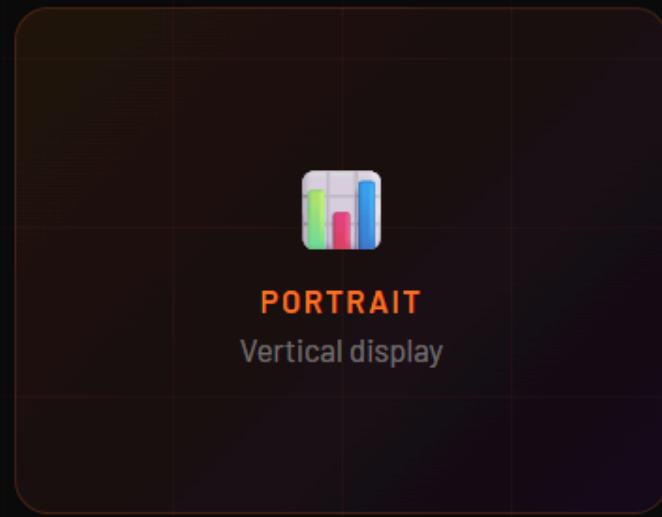

- ▶ Triggered instantly on jackpot events
- ▶ Plays across all connected screens simultaneously
- ▶ Premium animated win sequences
- ▶ Customisable celebration themes per venue
- ▶ Coordinated with audio and lighting

WINNER!

On every connected screen

FLOOR-WIDE TRIGGER

CONTENT TYPE 02

SCORECARDS

Display the latest and hottest jackpot scorecard graphics on any connected screen – fully branded to your venue.

- ▶ Choose how many wins to display
- ▶ Auto-refresh and timed rotations
- ▶ Venue branding: colours, logos, fonts
- ▶ Multiple display formats – portrait, landscape, circular orbital
- ▶ Cinematic-quality motion graphics

PLATFORM TOOLS

PUBLISH & MONITOR

REAL-TIME WYSIWYG PUBLISHING

Deploy campaigns or celebration sequences in minutes – no external vendors needed.

- ▶ Drag-and-drop page builder
- ▶ No-code layout editing
- ▶ Instant publishing to all screens
- ▶ Embedded HTML interactive content

CLOUD MONITORING & ENTERPRISE SUPPORT

Always on. Always connected. Built for multi-property scale.

- ▶ Remote system monitoring
- ▶ Diagnostics and updates
- ▶ Multi-property scalability
- ▶ Reduced downtime
