INTRODUCING JAMLED

Innovative LED Display Solutions for all Environments

From concept to completion, we design, engineer and install high-performance LED screens and video walls tailored to your space. With unrivaled expertise and a hands-on approach, our team delivers immersive visual experiences across the Asia Pacific.

Built to last

Backed by a 3-year warranty, our high quality displays are maintained, monitored and serviced by our dedicated support team.

Custom Solutions

Every space is different. Our designers and technicians work closely with you to create bespoke LED solutions that bring your vision to life.

Innovative Software

We develop our own signage and remote management software, giving you full control of your content from anywhere.

JAMFX

JACKPOT MEDIA MANAGER

JAMFX is a next-generation Gaming Floor CMS powered by JAMNET, our distributed network of intelligent media players.

When a gaming trigger such as a jackpot, bonus, or milestone occurs, the entire floor responds simultaneously.

- FX** JAMFX connects to Jackpot Controllers and Gaming Systems
- FX** Node based media player set up designed for scalability and flexible deployments
- FX** Approved in NSW by OLGR in 2020 and currently 100 customers installed
- FX** Connected to more than 600 jackpot controllers and more than 900 media players

JAMLED STUDIO

Your display is only as powerful as what's on it. At JAM LED, we don't just supply the screen, we make sure it demands attention.

Our in-house team specialises in custom animations, brand sequences, and visual campaigns engineered for LED environments.

From first brief to final upload, every stage of production happens under one roof. No outsourced design, no broken handoffs, no diluted vision. Whether you arrive with a fully realised idea or something still taking shape, we have the creative depth and technical capability to bring it to life exactly as you imagined it.

Gaming Content

Manufacturer Themed Content and our own inhouse jackpot themes as well as commissioned themes

Immersive Content

Original Animated and composited ambient content

Promotional Content

Content created for promotional or seasonal events

Interactive Content for promotional interactive games

Innovation in Action

From gaming floors to immersive feature screens, we collaborate closely with each client to design LED environments that engage patrons and elevate their space. Here's a glimpse of what we've built together.

Trusted By Leading Businesses

We're proud to partner with leading venues, gaming manufacturers, and businesses across the Asia Pacific region. Our clients choose JAMLED because they know we'll deliver on time, on budget, and beyond expectations.

Building lasting relationships is at the core of how we do business. We work closely with each client to understand their needs, their space, and their goals, ensuring every installation reflects the standard their venue deserves.

CUSTOM LED DISPLAYS

Integrated custom designed flat and curved LED displays in various pixels and shapes

We work closely with Customers, Designers, Builders and Architects to achieve affordable exciting outcomes

Well documented and executed project and implementation plans to ensure efficient ongoing support

The image shows a live broadcast of an Australian Rules Football match. The top of the screen features a large crowd in the stadium stands. The field is green with white markings, and several players in red and white uniforms are visible. The bottom of the screen displays a scoreboard and match information. The scoreboard shows the Essendon Bombers (ESS) leading the Adelaide Crows (CAR) with a score of 61 to 72. The time is 1:11 in the 4th quarter (Q4). The broadcast is on Fox Sports. The match is scheduled for tomorrow night at Marvel Stadium, starting at 8:30 PM EST.

- Latest Flip Chip COB Technology
 - Up to 40% energy savings
- 16-Bit Processing for superior brightness
- Robust coating Shields LEDs from moisture and damage
- Common cathode diodes reduce heat, extending lifespan
